## THINKING ABOUT QUITTING?

There are lots of reasons to quit nicotine.

If you've been thinking about quitting vapes or smoking, you've probably been thinking about the many possible benefits:

- helps you to live healthier and feel better
- protects your family from second-hand smoke/vape and discourages them from taking it up themselves.
- save money

But quitting can be tough, and it can take many attempts. That's why Barwon Health has set up a number of specialist 'Be Smokefree' Clinics to give smokers and vapers the help they need.

"I had been smoking for more than 30 years... without the one-on-one support from the Barwon Health smoking program I would not be where I am today... smokefree, healthy and enjoying life!"  
- John, 45

## 'BE SMOKEFREE' CLINICS AT BARWON HEALTH

The 'Be Smokefree' Clinics at Barwon Health provide individual support over a number of weeks.

This approach can be very helpful because:

- It helps you to understand why you smoke or vape and why you want to quit
- It helps you to develop strategies for quitting or cutting back
- It provides you with regular support to manage throughout the quitting process
- It provides non-judgmental encouragement - even if you slip up

Options for treatment may include Nicotine Replacement Therapy or prescribed medication, which will be arranged through your doctor.

Our specially trained staff can also liaise with your general practitioner and other health professionals to make sure we consider your overall health concerns. There is no cost for the clinic consultations.

## CONTACT US

Whether you're ready to quit now, or you just want to talk to someone about the program, please phone Information and Access on 1300 715 673. You can also return the completed form by fax to 4215 7795 or to any of the clinics listed in this brochure.
