About this guide

This document has been compiled by the Barwon Health GP Liaison Unit for General Practices with the intent to provide a quick navigation guide to Barwon Health services, with a focus on:

- An overview of current acute, sub-acute and community services available for GP referral
- Service and department contact details
- Key referral information, and where relevant, available referral templates

This document is best utilised in a digital format as hyperlinks will direct you to the associated page on the Barwon Health website for further information about the services.

Please note the date of currency of this guide, as information will be updated as required.

For more detailed information on all Barwon Health services, available resources include:
