

Barwon Health and Deakin University Research Week,  
in partnership with The Geelong Advertiser

PRESENTS THE ANNUAL

# HARRISON LECTURE FOR INNOVATION

&

## PRESENTATION OF THE 2017 BARRY JONES MEDAL

THURSDAY 16TH NOVEMBER 5PM

ST MARY'S LIBRARY AND RESEARCH CENTRE

192 MYERS STREET, GEELONG 3220.

In 1851, at Rocky Point on the banks of the Barwon River in Geelong, James Harrison, invented the first commercial ice-making machine in the world.

Thus began a culture for research and innovation in the region that continues today.

*The Harrison Lecture for Innovation both honours the legacy of James Harrison and looks at the modern, leading edge innovation in the region that is driving the new Geelong economy.*

Harrison Lecture to  
be delivered by:

Professor Emma Kowal,  
Alfred Deakin Institute,  
Deakin University

Barry Jones Medal  
to be presented by:

The Honourable  
Barry Jones AC
